

Standard Equipment/Optional Equipment

Standard Equipment

Sinergo®, the operator/truck interface:

Power assisted steering
Long tiller with low mounting point
Creep speed control
Linde Safety-Lift
End-of-stroke resistance
Dedicated work station (with storage compartments)
OptiLift® proportional lift system on the tiller head
Mast protection (polycarbonate or steel mesh)
Multifunction coloured display with weighing device as well as hourmeter, maintenance indication, battery discharge indicator and internal fault code indication
Weighing device information from the ground up to 1500 mm with +/- 50 kg accuracy
2,3 kW AC motor (maintenance free)
CAN bus technology

Vertical battery change 2 PzS (3 PzS on the 2 t version)
Positive steering (drive wheel) feedback
Automatic speed reduction when cornering
Electromagnetic emergency brake
Key switch or LFMgo (PIN-code access)
Cushion drive wheel
Polyurethane single load wheels
Single castor wheel (1.4 t and 1.6 t versions)
Double castor wheels (2 t version)
Width over fork carriage: 560 mm, 680 mm (1.4 t and 1.6 t versions) or 580 mm (2 t version)
Fork carriage length/thickness:
1150 mm/71 mm or 55 mm (preferred while using gitter box), 1150 mm/73 mm on 2 t version
Protection -10°C

Optional Equipment

Initial lift
Proportional speed control
Ultra fast lifting (up to +40%)
Double castor wheels (1.4 t and 1.6 t versions)
Soft landing of forks (free of charge)
Drive wheels: polyurethane, wet grip, cushion with tread, polyurethane with tread or non marking
Load wheels: tandem polyurethane, tandem polyurethane gresable
Load backrests
Lateral battery change 3 PzS (1.4 t and 1.6 t versions)
Standard, Duplex or Triplex masts (Mast up to 5316 mm)

Alternative fork carriage length/thickness:
950 mm / 71 mm or 55 mm (preferred while using gitter box), 950 mm / 73 mm on the 2 t version
Linde Connected Solutions:
ac:access control, an:usage analysis and dt:crash detection
Pack Clipboard
Mobile or Fixed battery stand (for lateral battery change)
Automatic battery watering system
Built-in charger
Cold store protection -35°C

Other options available on request

Pedestrian Pallet Stacker Capacity 1400, 1600 and 2000 kg L14, L16, L20

Series 1173

Safety

The Linde pedestrian pallet stacker is a perfect fit for any stacking application. A weighing device enables to estimate load's weight up to 1500 mm so as to combine the information with the capacity plate for advanced safety. Safety-lift can be used for lifting with the tiller vertical while safety is assured as both hands remain on the controls.

Performance

High operational efficiency is this truck's true strength with its 2,3 kW AC motor. The robust chassis structure gives this truck exceptional residual capacity and offers capacities from 1400 kg up to a strengthened 2000 kg version complying with heavy load handling performances

Comfort

The OptiLift system, easy access to the controls and fingertip operation of the truck allow precise and comfortable handling. The proportional speed control option automatically reduces traction speed in relation to the distance between truck and operator.

Linde Material Handling

Linde

Features

Tiller & Tiller head

- With the soft fold back system, the tiller returns smoothly to the vertical position preventing impacts against the motor's cover
- Long tiller with low mounting point provides a large safety clearance between operator and chassis
- Easy-to-reach control buttons permit fingertip operation for utmost efficiency
- Wrap-around hand protection
- Twin grip steering control, operable with either hand for easy handling

Linde Weighing Device

- Weight estimation of the load carried up to 1500 mm
- Information available at a glance on a wide multifunctional display
- System accuracy +/- 50 kg

Lifting System

- OptiLift® mast control provides precise, fully proportional lifting
- Soft landing of the forks protects the load when lowering
- Initial lift version provides improved clearance on ramps and dock levellers
- Wide range of mast options available to suit any application

Multifunctional Display

- Important information about truck and the load
- Easy and ergonomic navigation within the different settings and information tabs
- Provides hourmeter, battery status and maintenance information

Brakes

- Automatic braking on release of traction butterfly or selecting the opposite direction
- Truck slows before coming to a stop, remaining under total control at all times
- Highly efficient electromagnetic brake applied by moving the tiller to fully up or down position
- Easy-to-reach emergency isolator on the top of the front cover

Steering System

- Electric power steering as standard ensures effortless driving
- Proportional speed control varies truck speed automatically in relation to tiller angle for safe operation
- Creep speed function allows for slow and highly maneuverable operation in confined areas with upright tiller
- End-of-stroke resistance on the tiller avoids accidental, abrupt braking

AC Motor

- Powerful, high torque 2,3 kW AC drive motor
- Moisture and dust-proof AC motor
- No rollback when starting on a slope
- Traction speed adjustable up to 6km/h, laden or unladen

Battery change

- Vertical battery change as standard
- Lateral change option includes:
- Rollers inside the battery compartment to aid battery change
- Lever initiates battery change preventing direct contact
